GST Management ERP System

Under the guidance of:

**Dr. Shashidhar Muniyappa
M.D.,SVCE Bengaluru**

**Dr. Mukesh Kumar Singh
HoD(CSE),SVCE Bengaluru**

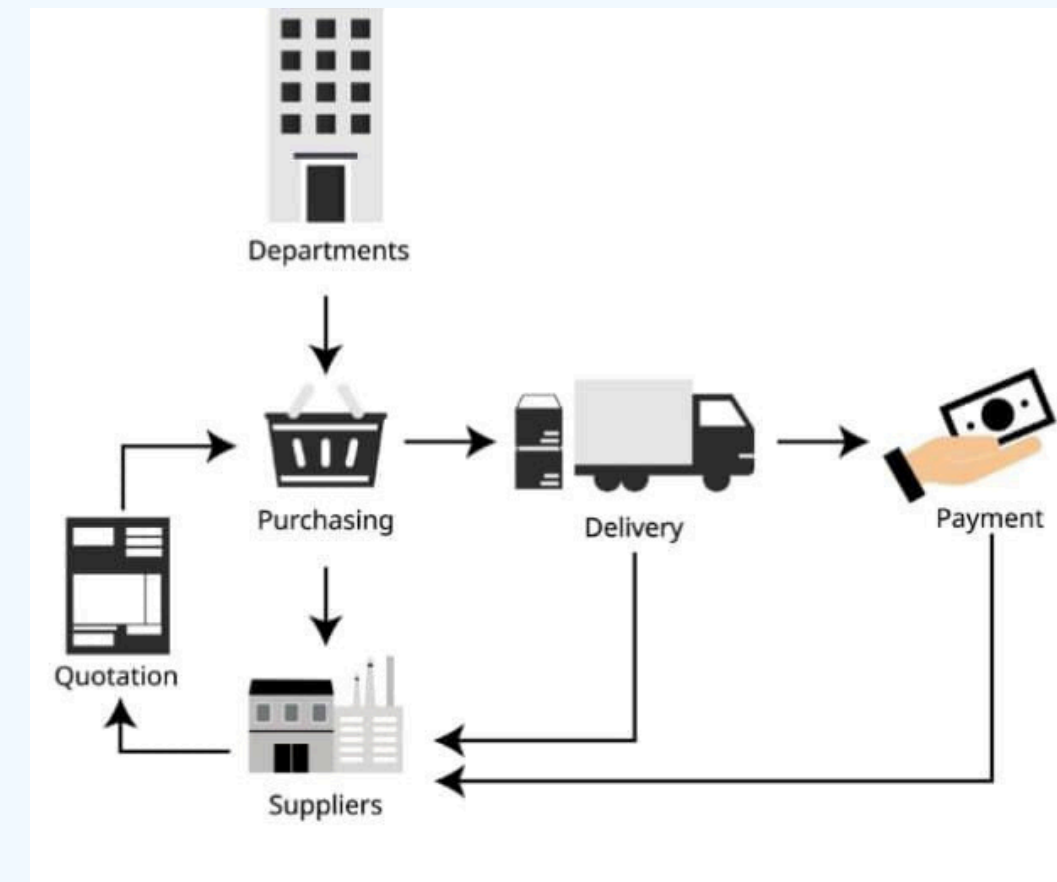

ERP Purchase & Inventory Management System

- It explains the complete process from customer order to material procurement and stock update.
- The system integrates different departments such as Management, NPD, Accounts and Store Incharge.
- It ensures proper coordination, tracking, and approval at every stage.
- The goal is to improve efficiency, accuracy, chase and inventory and transparency in operations

Work Assigned by Suhaas Engineering :

- Handle inquiry and prepare quotation through NPD.
- Create project after PO approval and upload BOM/design files
- Check material availability and raise requests if needed.
- Manage purchase orders and track procurement.
- Update inventory and generate QR codes for stock control.

Work Updates as per last Review :

Management Inquiry Stage:

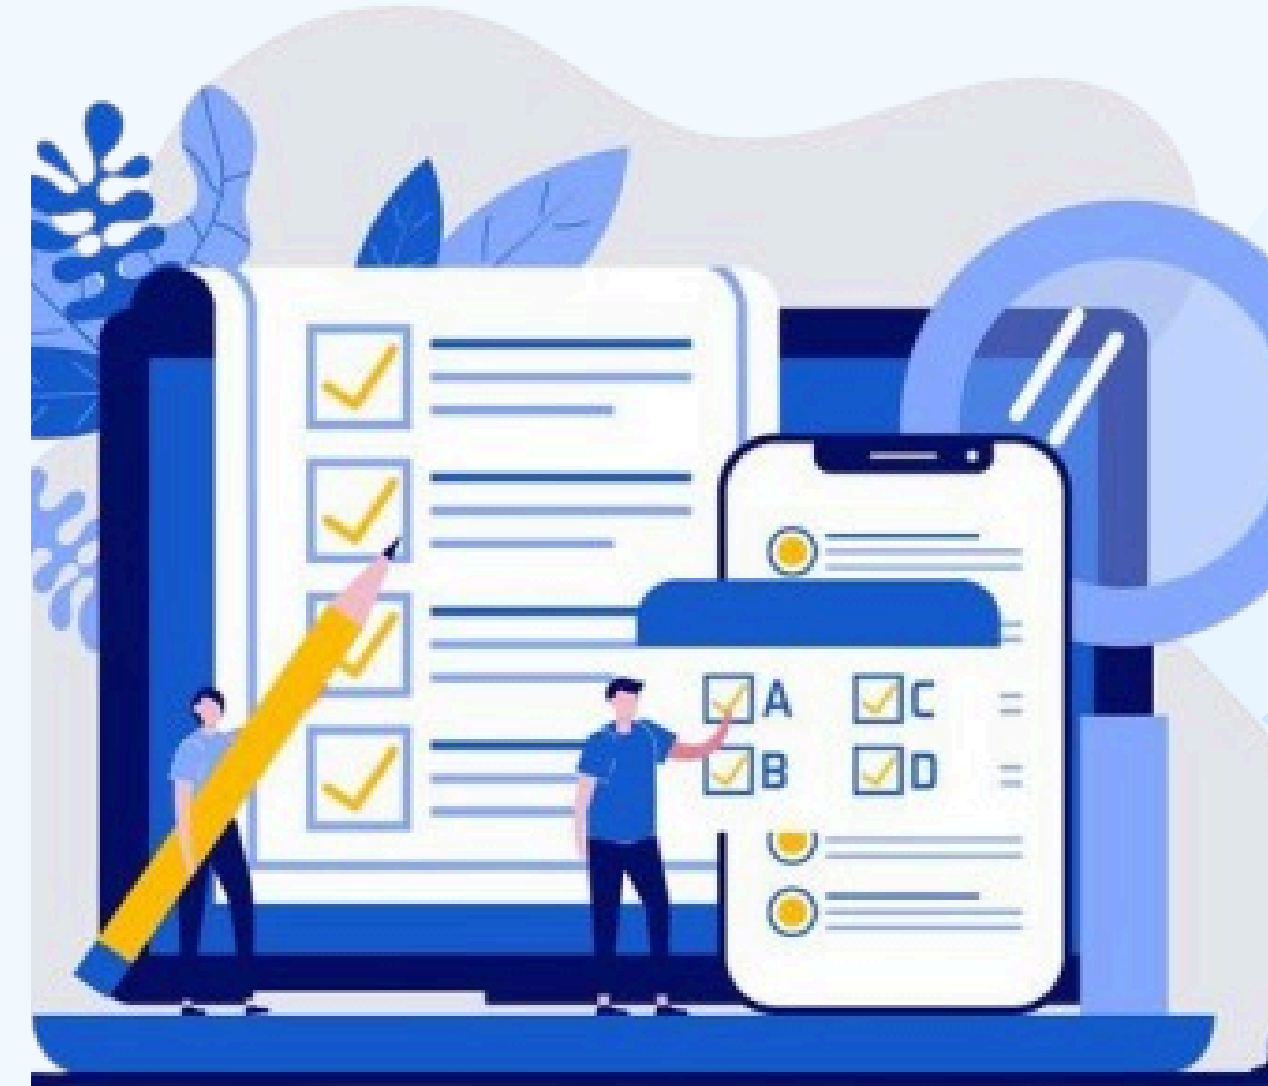

- Inquiry received by Management
- Inquiry forwarded to NPD (New Product Development)
- Initial requirement understanding

Quotation Process:

- NPD prepares quotation
- Quotation sent to Client and Management
- Negotiation if required
- Purchase Order (PO) created after approval

Project Creation:

- PO uploaded into system
- Project automatically created
- Bill of Materials (BOM) uploaded
- Sketch/Design files uploaded
- Project assigned to Project Manager

Work Updates as per last Review :

Material Requirement Check:

- System checks material availability in stock
- If material unavailable → Request sent to Accounts

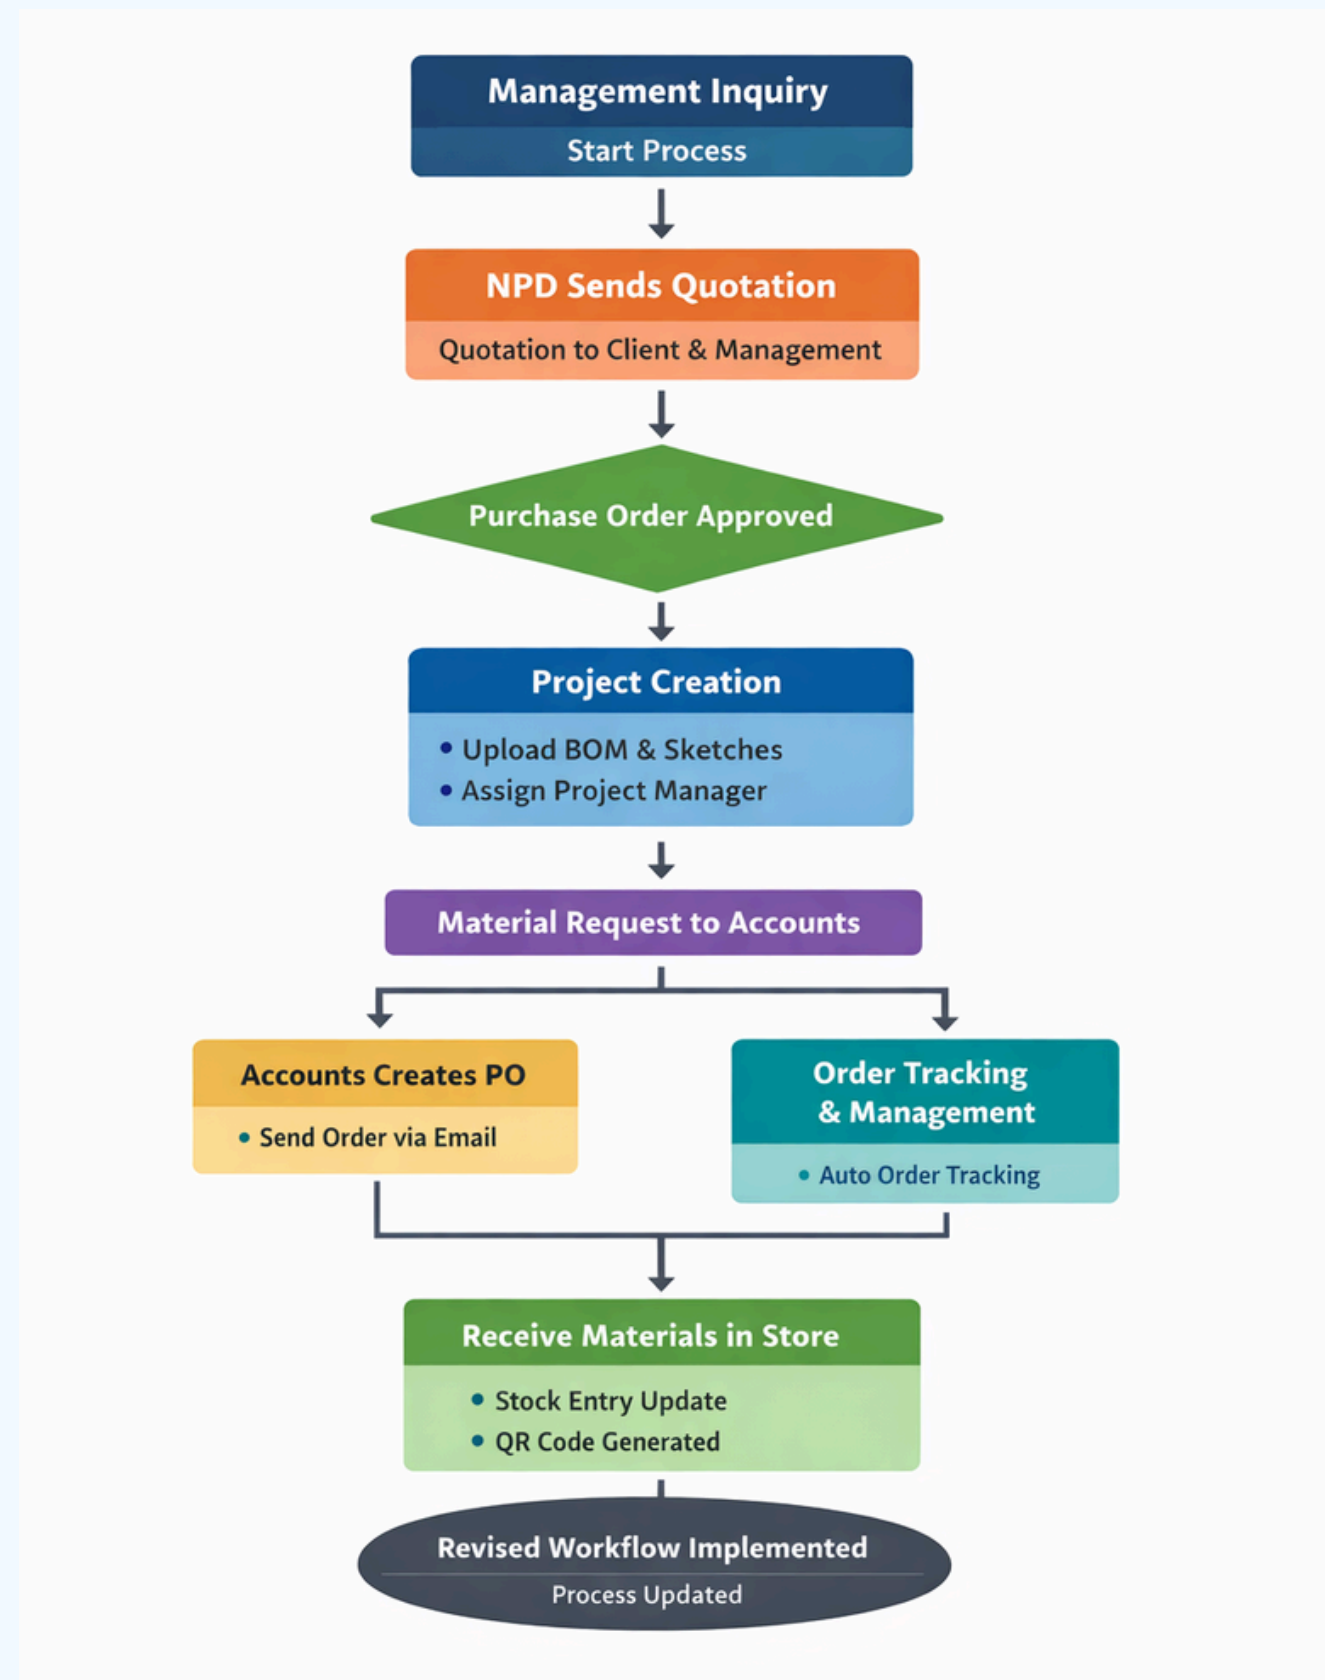

Accounts & Order Management:

- Accounts prepares master material list
- Purchase Order generated
- PO sent via email
- Order tracking managed automatically in system

Store & Inventory Handling:

- Ordered materials received
- Automatic stock entry under Store Incharge
- QR code auto-generated
- QR based on Purchase Date / Batch Number

Complete Workflow:

Thank You
